

Jenn Bishop - Author Visit Guide

As a former teen and children's librarian, Jenn *loves* inspiring the next generation of readers and writers. Presentations can be tailored to specific grades (her books are best suited for grades 4-8) and customized to fit your school's needs. She especially loves to talk about revision, the journey from idea to book, how there is no one right way to write a story, and the books that have inspired her. The most magical visits come when students have already engaged with one of Jenn's books, whether it's through a classroom read-aloud or a One Book, One School program, etc.
